

VISIOMATIC DOUBLE-J URETERAL STENT KITS

Steerable double-J ureteral stent kits with VISIOMATIC delivery system

KEY FEATURES

- VISIOMATIC steerable delivery system, ureteral stent made of aliphatic polyurethane, open tip, white or green (soft), size FR 07, lengths from 24 to 30 cm
- Guidewire, PTFE-coated, movable core, 0.035 in, 150 cm long, (only with US-11 and US-14)

BENEFITS

- VISIOMATIC delivery system allows optimal disconnection of stent from steering section
- Catheter tip can be guided through the movable core of the guidewire
- Use of aliphatic polyurethane makes the stent ideally suited for short-term and long-term drainage
- Guidewire clamp allows for tight securing of the wire; this design enables irrigation to a limited extent with the wire clamped in place
- Indwelling times of up to 6 months
- Pre-assembled complete kit

ORDERING INFORMATION

- VISIOMATIC kit, steerable, white
